

COMPANY

Mission Aligned Technology

Wentworth Consulting Group, LLC (WCG) is an SDVOSB based in Central Texas. We help government and commercial clients align technology with mission, improve operational maturity, strengthen cybersecurity and compliance, and plan or procure infrastructure built for long-term support.

Established in 2019, WCG combines founder-led accountability with technology-business experience dating to 1991. The company remains directly accountable from planning through implementation.

CAPABILITIES

Core Competencies

Technology Strategy and Leadership. Fractional CTO support, executive technology advisory, business process modeling, technology roadmaps, governance, and operational maturity consulting.

IT Infrastructure and Hardware. Wired and wireless networks, firewalls, servers, workstations, laptops, print systems, video surveillance, and structured low-voltage or fiber design and coordination.

Managed Services and Cloud. Managed IT and remote support, Microsoft 365 and cloud planning, DNS and domain services, backup, continuity, software administration, and lifecycle support.

Cybersecurity and Compliance. Governance, risk and compliance advisory, readiness assessments, security documentation, policy and procedure development, awareness training, and improvement planning. Through integrated GRC platform capabilities, WCG supports certification and audit preparation across 350+ global frameworks, standards, regulations, and best practices, helping organizations reuse controls, evidence, and remediation work across overlapping requirements.

Facility and MDU Technology. Site-wide networking, tenant isolation, secure access, connectivity redundancy, and instant-on internet planning for multifamily communities, off-campus student housing, dormitories, and other complex facilities.

Technology Acquisition and Licensing. Hardware, infrastructure, end-user equipment, software, subscriptions and cloud licensing, with staging, deployment coordination, renewals, warranties, and lifecycle accountability.

VALUE

Why WCG

- Direct access to the principal advisor responsible for recommendations and outcomes
- Founder-led accountability from discovery through delivery
- Commercial operating experience dating to 1991, including 300+ clients served and approximately 98% retention during the prior operation's final 20 years
- Lean delivery model that avoids unnecessary overhead and supports competitive commercial pricing
- Clearly defined prime contractor, subcontractor and teaming-partner roles
- Technology decisions tied to mission outcomes, security, lifecycle cost and sustainment requirements

541512 Computer Systems Design
541519 Other Computer Related Services
541611 Management Consulting
541618 Other Management Consulting
541690 Other Scientific and Technical Consulting

DELIVERY

Scalable Service Model

WCG maintains a focused core and scales through qualified distributors, subcontractors, and specialized consultants when a requirement calls for additional capacity, expertise, or geographic coverage. Each opportunity defines who performs the work, who holds responsibility, and which relationships or authorizations apply.

This model preserves direct principal involvement while giving agencies a practical path to broader delivery. WCG can serve as a prime contractor, subcontractor, teaming partner, or opportunity-specific procurement resource.

Representative Partner Categories

- Technology distribution and equipment sourcing
- Hardware, networking, cloud and SaaS manufacturers
- Cybersecurity and GRC platforms
- Structured cabling and regional network installers
- Specialized GRC, MDU and application security consultants
- Telecommunications and connectivity providers

ACQUISITION

Technology Procurement

WCG supports hardware, software, subscription, cloud and equipment acquisition through a lean delivery model. We focus on responsive sourcing, competitive commercial pricing, clear configuration requirements, and lifecycle accountability.

- Hardware, infrastructure and end-user equipment sourcing
- Software, subscription and cloud licensing procurement
- Configuration, staging and deployment coordination
- Warranty, renewal and lifecycle management
- Government Purchase Card acceptance

EXPERIENCE

WCG Operating Legacy

WCG draws on a technology-services operating legacy that began in 1991 through predecessor companies founded and led by its principal. Those operations served 300+ clients and maintained approximately 98% client retention during the final 20 years before Fusion IT was sold in 2019.

- 1991** Consultations Plus established the foundation for WCG's client-service approach through break-fix IT support.
- 2007** Consultations Plus and acquired Service Technology combined as Fusion IT, expanding managed services and project delivery.
- 2019** After Fusion IT was sold, WCG was established to carry that operating experience into executive consulting, operational maturity, fractional CTO services, technology advisory, and selected managed services.
- Today** WCG is extending this experience into government contracting through direct awards, subcontracting, teaming, and procurement support.

CONTRACTING

Procurement Readiness

- Active SAM.gov registration
- SBA-certified SDVOSB
- Micro-purchase and simplified acquisition support
- Government Purchase Card accepted
- ACH, EFT and major credit cards accepted
- Prime, subcontractor and teaming arrangements
